

THE YEAR IN REVIEW

From Our Team to Yours

A BIG THANK YOU!

from our President

I want to thank all of our customers and vendors for another successful year at Swan Co, despite the challenges we all faced in 2020. We will all remember 2020 as a year of uncertainty. So it is with the deepest gratitude that we say THANK YOU for your support and trust in our ability to serve you.

We're greatly looking forward to all that we will accomplish together this year!

*With Gratitude,
Joseph Swanekamp*

New Additions

Crossing State Lines

What's Coming?

PLAINFIELD, NJ

BEFORE

AFTER

NEW ADDITIONS

In 2020, we upgraded much of our equipment. This enabled us to work more precisely and effectively in your behalf. All of our pavement maintenance services---CRACK SEALING, SEAL COATING and LINE STRIPING---are performed in-house with the highest quality equipment, enabling us to deliver the best quality on each project.

In addition to growing our Pavement Specialist Crew, we're also excited to announce that Joe's wife, Kim, has joined our team full time. Previously, she worked as a Construction & Property Manager in Eastern Long Island so we look forward to putting her talents to work for all of you!

CROSSING STATE LINES

Last year we worked on a number of exciting projects. The year began with a 90 acre land-clearing job in Schenectady, NY.

Then, at the start of the pavement maintenance season, we worked in Philadelphia repairing potholes & catch basins and building a new 10' x 20' dumpster enclosure.

During the summer of 2020, we crack-sealed more than 250,000 linear feet & applied more than 10,000 gallons of pavement marking-paint.

WHAT'S IN STORE FOR 2021?

When winter services wrap up in the Spring, we anticipate a rapid start to the 2021 pavement maintenance season. The valuable lessons learned in 2020 will allow us to deliver the highest quality service and exceed your expectations from project inception to completion.

Thank you for Trusting Swan Company to serve you!
