SWAN CO.
ASPHALT & CONCRETE

OUR GROWING TEAM & AWARD-WINNING WEBSITE

GRATEFUL FOR A SUCCESSFUL SNOW SEASON

As **The Pavement Specialist**, our expertise doesn't end when temperatures drop. Swan Company also specializes in winter services such as **snow removal, ice management, and snow relocation**.

We provide winter services exclusively for properties that we are equipped to **self-perform**. For this snow season, we acquired a Snow-Blast Snowblower attachment for our Caterpillar Compact Tracked Loader. This new addition enabled us to clear & relocate a 6" snow event from 5 acres of pavement within hours.

When you need quick, thorough, & consistent snow removal service, Trust Swan, The Pavement Specialist. To learn more about expert winter services, check out our blog article: **Will Your Snow Contractor Outperform The Storm?**

Meet Our New Operations Manager

WELCOME DAN P.

We're excited to introduce you to Daniel P., the newest addition to our management team. Dan joins Swan Co. as a **Field Operations Manager** with more than ten year's industry experience.

With strong family ties to the asphalt, concrete, & site works industry, Dan has worked in various sectors from heavy highway construction to commercial & industrial projects. When it comes to Pavement, Dan is truly a Specialist. He's also OSHA certified and shares our company value that financial incentives never outweigh the benefits of safe work practices.

*"Swan Company has great leadership. What caught my eye right away is the **attention to detail they give to each customer's project**. It's like helping out family, there's **no short cuts.** I'm looking forward to continuing to build on the success they have already achieved." - Dan*

Pavement Maintenance & Reconstruction magazine writes: A captivating collection of videos with a bright white phrase *"trusted partners for property management professionals"* is the first thing that greets people on the homepage of the website. The site not only showcases pictures, but it **features projects** the company has completed. There are blog posts with **educational content**, and an about section which dives deep into the trust they are building with their customers. No detail has been overlooked.
