"Trusted Pavement Partner For Property Management Professionals"

SWAN CO. ASPHALT & CONCRETE

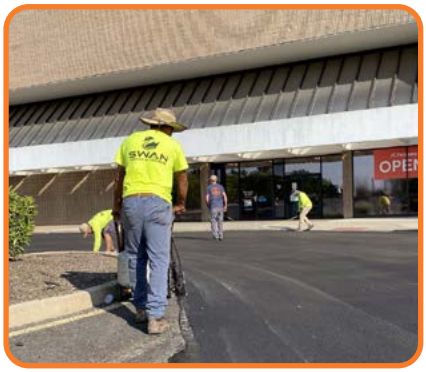
How to Recession Proof Your Property

- Staying compliant with **ADA and Fire Code** regulations can be tricky. Avoid costly fines by ensuring your property is up to date.

Swan Co. offers compliance audits to help you stay on top of the complex rules and regulations.

- Trip & fall hazards - Insurance & mortgage companies require tripping hazards be remediated. Personal injury claims are very costly. **Identify & repair hazards** as early as possible.

- Crack sealing an entire parking lot is often 80% less costly than repairing four potholes.



Pro-active pavement maintenance **saves money** compared to pre-mature capital improvement projects.

DID YOU KNOW?

Swan Co. will offer pre-season discounts on select services! All you have to do is book them by April 1st. Request your quote today so you can take advantage of these additional savings!
